### What are the cookies?

A cookie is a file that is downloaded to your computer when you visit certain web pages. Among other things, cookies allow a website to store and retrieve information on a user's browsing habits or computer equipment and, depending on the information they contain and the way you use your computer, can be used to recognize you.

### Types of cookies

There are two main types of cookies that can be used by a website: first party cookies and third party cookies.

Cookies can also be classified by to the length of time they are stored on your browser, either session cookies or persistent cookies. There are also five types of cookies classified according to the purpose for which the data is used: technical cookies, customization cookies, analytical cookies, advertising cookies and behavioral advertising cookies. Analytical cookies do not gather any personal data. The information compiled relates to the number of website visitors, the number of pages viewed, the frequency and repetition of visits, their duration, browser, service provider, language and terminal used, or the city to which the IP address is assigned. Gathering such information allows us to improve and enhance our web services.

We also use technical cookies to ensure that users can browse our website works properly.

Lastly, it downloads a technical cookie called viewed\_cookie\_policy, cookieLawInfo-checkbox-necessary, CookieBrowserID and CookieLawInfoConsent. It manages the user's consent to the use of cookies on the website, in order to avoid the excessive inconvenience that may arise from repeatedly displaying information on the cookie policy at the top of the website to those who have accepted it. This cookie will remain on your computer for one year. IP will be saved

### What type of cookies does this site use?
